Specifications subject to change.

## Quick Start

mode lets you enter the Manual program with a single touch of the Quick Start Key. Also included are 30-minute Weight Loss and 20-minute Cardiovascular programs, each with 10 levels.

## Ultra Low Maintenance

The multi-ply cotton backed belt and waxed maple surfaced marine hardwood deck are ideal for virtually maintenance free, quiet operation.

## The powerful 3.0 HP motor has integral brush wear monitoring and a radial fan

for cool and quiet operation. The controller utilizes high efficiency Pulse Width Modulation technology for

## Well-grounded design

provides a clean solid look with a low step-up height.

## Long Life

The rugged 3" crowned rollers provide long roller bearing life (250,000 miles) and are designed for optimal belt tracking for smooth, vibration-free operation at all speeds.

## Heart rate monitoring

from the contact grips.

## Stableflex™ Suspension

takes the shock out of running. This supremely comfortable suspension system absorbs the impact where it occurs, yet provides a stable toe-off area for maximum running efficiency.

## Super convenience

with two water bottle holders and a CD player holder.

## Attention to detail

in areas you may not consider. Covered belt edges prevent edge fray and dirt from collecting. They also help keep items, such as towels, from being caught.

## CSAFE capable

for use with CardioTheater®, BroadcastVision® and Fitlinxx® systems.

## Safety Sentry™ Technology

stops the belt after the pre-selected waiting period to help protect your facility and users. Don't forget the Safety Lanyard.

## For easy movement,

we've included a pair of pick up handles at the rear of the unit.
