# CYBEX Cyclone™ - C Cycle

## Cyclone™ - C Cycle

- Three modes of bike operation and programming for added variety: bike mode (bike programs), constant power (fitness programs), accommodating resistance/isokinetic (speed programs) as well as Heart Rate Control and fit-test programs
- Optimal console placement positions the display in the rider's field-of-view and out of the path of sweat
- Proprietary seat design features a comfort groove and is shaped to fit the user
- Two-stage drive system with self-tensioning idlers and hybrid eddy-current self-generating brake provide high torque capabilities at lower brake speeds for smooth operation and an exceptionally wide resistance range of 15 to 900 watts
- Multi-position design of handlebars accommodates riding styles from upright to aero and is equipped with two sets of contact heart rate grips in addition to the standard Polar® compatible heart rate receiver
- Structural durability of frame allows for the most demanding user to experience a full and intense workout
- Forged three-piece superior mountain bike crank set for extreme durability
- Larger pedals to better accommodate any size foot
